

Welcome To The Youth in AI Summit

The Summit brings together hundreds of youth, AI innovators, digital influencers and policy makers from across Ghana and Africa to a common room to foster a supportive ecosystem that nurtures talent and innovation.

The event addresses issues relating to the role of Artificial Intelligence in this digital age and engages the youth to explore technology as a tool for career prosperity.

Speakers For Youth in AI Summit

Dr. Keita Broadwater, MBA

Title: Chief Data Strategist & Partner, Hewani Data

Topic: "Leveraging Data for AI Innovation in Africa"

- Focus: The importance of data in driving AI innovation and its applications in addressing societal challenges in Africa. The talk can highlight strategies for collecting, managing, and analyzing data effectively to empower young AI innovators.
